Turnkey online store development

CLICK WEB DESIGN SRL offers the development of a modern online store with a full cycle of services — from planning to launch and technical support.

1. Project goal

Creating an efficient online store that:

- Automates order processing
- Provides convenience for customers
- Increases brand awareness

2. What development includes

◇ 2.1. Planning

- Niche and competitor analysis
- Website structure development
- Page prototype creation

◇ 2.2. Design

- Modern design
- Mobile-friendly (responsive)

◇ 2.3. Online store features

- Product catalog with filters
- Product page (description, photos, specifications)
- Shopping cart and checkout
- Online payment (card / payment systems)
- Customer personal account
- Order management system
- Admin panel for product management
- Ability to add over 3000 products
- Basic SEO optimization

◇ 2.4. Additional (on request)

- Multilingual support (EN / RO / RU)
- Advertising campaign setup (Google / Meta)

3. Technologies

We use modern technologies:

- OpenCart
-

4. Timeline

3–5 weeks after project approval and technical documentation agreement

5. Cost

The price depends on features and catalog size.

💰 Basic online store
